■■ PAGE 3: ADMIN MANAGEMENT CENTER & LIVE PHOTO MANAGER

The Admin Management Center equips store administrators with real-time KPI performance counters, order dispatch pipeline controls, and direct Cloudinary device photo uploads.

Admin Center Functional Highlights

1. Executive KPI Metrics Bar	Real-time telemetry tracking Total Sales Revenue, Order Volumes, Hampers Listed, and Registered Customer Accounts.
2. Live Device & URL Photo Manager	Upload hamper images directly from local device to Cloudinary CDN or paste image URLs. Renders instant thumbnail preview grid with **#1 Cover** badge and 1-click removal.
3. Order Status Pipeline Controls	Update order progression seamlessly through 5 stages: Processing → Packed → Dispatched → Out for Delivery → Delivered.
4. Stock Adjustment Telemetry	Live stock quantity warnings triggering low inventory alerts for products with ≤ 5 units.

Hamper Photo Manager Architecture

Step / Trigger	System Process & Endpoint	Result / Render Output
Click 'Upload From Device'	Triggers hidden file input `#modal-device-file-input`	Opens native OS file chooser
Select Image File	POST `/api/admin/cloudinary/upload` (Bearer JWT)	Uploads image to Cloudinary CDN
CDN URL Generated	Populates `.prod-photo-input` field	Returns `https://res.cloudinary.com/...`
Render Live Grid	Executes `renderModalPhotoPreviews()`	Displays thumbnail box with `#1 Cover` badge and `x` delete

■■ PAGE 4: CUSTOM PROMO CODE GENERATOR & RULES ENGINE

The Custom Discounts Generator empowers admins to auto-generate or create tailored discount code rules with granular parameters and live cart validation.

Customization Parameters & Configuration Options

Auto-Generate Code	Click **'■ Auto-Generate Code'** to create random promo strings (e.g. KAWAI-8F92) or enter custom promo names.
Discount Type	Toggle between **Percentage Off (%)** (e.g. 20% off) or **Fixed Amount Off (■ / $)** (e.g. ■500 fixed reduction).
Minimum Spend Rule	Require cart subtotals to exceed a specified amount (e.g. Min spend ■1,000) before code applies.
Usage Limit Counter	Set maximum allowed redemptions (e.g. 50 total redemptions max) or set 0 for unlimited uses.
Expiry Date Picker	Set exact expiration dates (YYYY-MM-DD). Expired codes are automatically rejected.
Category Scope Targeting	Restrict codes to specific hamper categories (e.g. Luxury, Corporate, Wellness, or All).

■ PAGE 5: CUSTOMER CREDENTIALS DIRECTORY PORTAL

The Customer Directory portal at http://localhost:5000/admin/customers provides concierge admins with real-time authentication logs, credential security encryption status, and account controls.

Security Guard & Admin Control System

Strict Token & Role Enforcement	Protected by @token_required and @admin_required decorators. Unauthenticated users visiting /admin/customers are blocked with an HTTP 401 response and an Access Denied guard.
Credentials Security View	Displays SHA-256 hashed password statuses (e.g. SHA-256 (8cc88546...d5e5)), Auth provider types (Email/Password), and Mobile OTP verification states.
■ Password Reset Control	Admins can trigger force password resets for any customer account via an interactive modal (`PUT /api/admin/users//reset-password`).
■ Role Elevation Toggle	Promote registered customers to Concierge Admin or demote accounts with instant audit logging (`PUT /api/admin/users//role`).
■■ Customer Account Removal	Safely remove customer accounts from the database (`DELETE /api/admin/users/`).

Customer Credentials Database Records Sample

ID	Customer Name	Email Address	Security Credential Status	Role	Orders	Lifetime Spend
#1	Admin Manager	admin@gifthampers.com	SHA-256 Hash + JWT Token	■ Concierge Admin	0 Orders	■0.00
